**NEWS RELEASE
October 1, 2007
Consultant Engaged**

Sego Resources Inc. announces the engagement of Vic Preto, Ph.D, P.Eng., as overall consultant to the company for work on the Miner Mountain Copper/Gold/Palladium Project. Miner Mountain lies immediately northeast of Princeton, BC, in the prolific Quesnel Stikine Terrain and in the Traditional Territory of the Upper Similkameen Indian Band. Dr. Preto was for many years the Regional Geologist for the British Columbia Department of Energy and Mines in this area and is considered an expert in the geological setting of the Miner Mountain Project.

The company plans a mapping program and archeological review followed by soil sampling and IP in preparation for drilling this project. Work is planned to start forthwith. Drilling is planned for late November or early December.

J. Paul Stevenson, CEO

Sego Resources Inc.

“No regulatory authority has approved or disapproved the information contained in this news release. This release includes certain statements that may be deemed “forward-looking statements”. All statements in this release, other than statement of historical facts, that address future production, reserve potential, exploration drilling, exploitation activities and events or developments that the Company expects are forward-looking statements. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, statements are not guarantees of future performance and actual results or developments may differ materially from the forward-looking statements. Factors that could cause actual results to differ materially from those in forward-looking statements include market prices, exploitation and exploration successes, continued availability of capital and financing, general economic, market or business conditions. Investors are cautioned that any such statements are not guarantees of future performance and that actual results or developments may differ materially from those projected in the forward-looking statements.”
